

We continue to work to advance our technological capabilities in the After School Program including an introduction to Computer Programming for younger boys, a mix of Hardware and Software Computer Programming with our 'kids learning code' program, as well as continuing to offer and advance our Robotics program.. We also continue offer more depth of variety in our programming this Spring with many more options than ever before.

To register for Spring After School Programs please follow the following instructions:

- 1) Using the 'ASP Spring 2015 Club Schedule' in combination with the 'ASP Club Descriptions - Spring' please choose the clubs that you would like to register for.
- 2) Please click on the link below (or copy it into your web browser) to register your son in any of the ASP club options. **YOU WILL NEED YOUR SON'S STUDENT I.D. NUMBER.** Please notes that on the registration page there are prices, dates and times to remind you of such details.
- 3) Special note - change this year – after registering you will receive an email at the email listed confirming the choices you have made. If any such changes need to occur, please contact Paul McGarr – [pmcgarr@ucc.on.ca](mailto:pmcgarr@ucc.on.ca)

\*By completing and submitting this registration document you verify your signature and give us permission to sign up your son(s) for the Clubs and apply any applicable charges to your student account. Costs will again be verified by email after the sign up process is completed.

The deadline for signing up for clubs is **Friday, March 27, 2015**. However, we can still accept registration forms until **Friday, April 3, 2015**.

Best regards,

Paul McGarr  
ASP Coordinator
