

GROUP 3 - INDIVIDUALS AND SOCIETIES – HISTORY - EUROPE

	Review Start Date	If formal assessments are completed early, how will students be engaged until the end of the term?
April 20	<p>Review is ongoing in Y12 as new topics are taught. For example, the emergence, consolidation and maintenance power, and policies of Hitler and Mao in Terms 1 and 2 respectively are linked to the rise and rule of Stalin, covered in Y11. The ability to draw comparisons between leaders of authoritarian states is often a requirement of essay questions for Paper 2. Winter term assignments also include building review/revision essay plans and outlines in preparation for the final exam.</p>	<p>New material New material will be covered until 2-3 weeks prior to formal review week leaving approximately 4 weeks in April dedicated to exam review. This new syllabus material includes course content on WWII and Mao's China. These are important topic areas that students will require for the final exam. In particular, Paper 2 often necessitates a comparison of authoritarian states from Europe with that of another region. The study of Mao's China provides material from that other world region.</p> <p>Review process In early April, there will be a re-examination of topics covered in the 2 year course to ensure that knowledge is reinforced. Students will get the opportunity to prepare review/revision essay outlines, as well as share these on Google Docs. The teacher will also share previous IB exam questions, review approaches and possible responses to them, as well as provide marking schemes/rubrics.</p>
